

🌟 “Still working harder... but not getting ahead?”

Discover how South Africans are building
asset-based income with a structured,
FSCA-approved system.

Debt grows daily. Assets can too.

South Africans scroll Facebook & TikTok daily, searching for ways to earn extra money.

Most options? Quick-rich schemes that collapse.

👉 **What if you joined a reputable, FSCA-approved company that rewards consistency with cash, cars, holidays, and recurring income?**

Debt Trap

Compounding interest, rising inflation, and no financial safety net.

Asset Growth

Building monthly recurring income streams that grow over time.

One product. One decision.

You don't need thousands. You need commitment.

With DuePoint, you start with one product at **R349/month**. That's your seed.

From there, you can grow into recurring income streams.

- ✓ Affordable entry.
- ✓ FSCA-approved, established in 2016.
- ✓ Structured, legitimate, not entertainment.

Duplication makes the difference.

You're not alone. Every new wealth engineer gets:

- ✓ Step-by-step training.
- ✓ Scripts and starter videos.
- ✓ Ongoing support from mentors.

Duplication means your team follows the same simple system.

2 hours a day builds assets.

DuePoint isn't auto-pilot. It's real work. But it pays off.

Daily actions compound into big results. That's how South Africans earn:

- ✓ Dedicate 2 hours daily.
- ✓ Track actions in a notebook.
- ✓ Celebrate small wins with your team.

Cash Rewards & Income

Luxury Holidays

Earned Luxury Cars

Ready to escape the debt trap?

Every day you wait, debt grows.

Every day you act, assets grow.

Don't miss out — others are already qualifying for cars and holidays.
